

ABOUT US

We believe it takes knowledge and know-how from different types of experts to design excellent PU holds. That is why our team is consisted of professionals from different fields of expertise: climbers, technicians, and managers.

We are looking forward to cooperate with you!

The vision of the GECKO HOLDS Company is to deliver modern and eco-friendly PU holds with the best grip possible combined with unique design.

PRODUCTS

Products from our sales assortment of holds are known for their unique colors, designs, and materials.

Each hold is designed with the intent to enable the best grip possible as it is created based on climbing experiences of world renowned climbers.

Our team guarantees the delivery of even the most complex shapes of holds made based on your requests in exemplary production time.

*“With passion for **climbing!**”*

STRENGTH

100% polyurethane holds for greater strength

RESISTANCE

Additives to improve abrasion resistance

VARIETY OF COLORS

Available in wide variety of colors (panton color chart)

NIGHT CLIMBING

Holds with fluorescent pigment for night climbing

HOLDS

ERGONOMIC COLLECTION

Ergonomic collection was designed to make climbing more comfortable and is therefore especially suitable for kids and beginners, but more experienced climbers will enjoy them as well.

AMOEBAS

The random shapes of these holds are inspired by altering shapes of amoebas.

- # HOLDS 7
- 🏆 DIFFICULTY kids, beginners
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE all holds are both round edges and pinches
- ↗️ SIZE 4x S, 3x M

ASTEROIDS

The random shapes of these holds are inspired by altering shapes of asteroids.

- # HOLDS 8
- 🏆 DIFFICULTY kids, beginners
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE 4 pinches, 3 small jugs, 1 jug
- ↗️ SIZE 8x M

STONE AGE

It consists of 8 jugs and pinches and it is perfect for route climbing on steep overhangs.

- # HOLDS 8
- 🏆 DIFFICULTY all kinds of climbers, especially beginners
- ⚙️ WALL overhanging walls (more than 10°)
- 🧩 TYPE 5 small jugs, 3 jugs
- 📏 SIZE 8x M

HOLDS

MOUSE TRAP COLLECTION

Mouse trap collection, which was designed to make climbing more comfortable and is therefore especially suitable for beginners. Although they resemble nibbled cheese, we can assure you, we don't have any hungry mice running around our warehouse. The shapes are especially designed to offer a variety of different grabbing possibilities, which makes them very useful. Due to its unique design, your thumb will always find a right place.

CHEESY

Although they resemble nibbled cheese, we can assure you, we don't have any hungry mice running around our warehouse. The shapes are especially designed to offer a variety of different grabbing possibilities, which makes them very useful. Your thumb will always find a right place.

- # HOLDS 7
- 🏆 DIFFICULTY beginners
- ⚙️ WALL slightly overhanging walls (up to 10°),
overhanging walls (more than 10°)
- 🧩 TYPE 4 edges, 3 pinches
- ↗️ SIZE 7x M

ITCHY

Although they resemble nibbled cheese, we can assure you, we don't have any hungry mice running around our warehouse. The shapes are especially designed to offer a variety of different grabbing possibilities, which makes them very useful. Your thumb will always find a right place.

MINI VOLUMES

LIMESTONE

COLLECTION

Limestone collection, which mimics eroded rocks for genuine rock climbing experience.

LASSIE

Because of its surface it offers a good grip, which will be particularly useful when climbing boulder problems. Just like any good dog, Lassie can be your best friend when climbing an overhanging wall and searching for a great edge with a lot of different grip possibilities.

- 🏆 DIFFICULTY all kinds of climbers
- ⚙️ WALL overhanging walls (more than 10°)
- 🧩 TYPE jug

REX

Because of its surface it offers a good grip, which will be particularly useful when climbing boulder problems. Just like any good dog, Rex can be your best friend when climbing an overhanging wall and searching for a great edge with a lot of different grip possibilities.

- 🏆 DIFFICULTY all kinds of climbers
- ⚙️ WALL overhanging walls (more than 10°)
- 🧩 TYPE edge

GODFATHER

Because of its surface it offers a good grip, which will be particularly useful when climbing boulder problems. This sloper will add a bit of excitement to true Dons of climbing world.

- 🏆 DIFFICULTY experts
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE sloper

OCEANS

Because of its surface it offers a good grip, which will be particularly useful when climbing boulder problems. This sloper will add a bit of excitement to true experts and it will team up perfectly with your hand for your next big venture.

- 🏆 DIFFICULTY experts
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE sloper

SNATCH

Because of its surface it offers a good grip, which will be particularly useful when climbing boulder problems. This sloper will add a bit of excitement to true experts, but don't worry, it won't let you throw the game.

- 🏆 DIFFICULTY experts
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE sloper

BONNIE & CLYDE

Bonnie and Clyde are two smaller mini volumes. Because of their surface they offer a good grip, which will be particularly useful when climbing routes. It will feel natural holding these jugs, and you better be careful before this cute couple steals your heart as well.

- Number of volumes: 2
- 🏆 DIFFICULTY all kinds of climbers
- ⚙️ WALL overhanging walls (more than 10°)
- 🧩 TYPE jugs

MR NICE

Because of its surface it offers a good grip, which will be particularly useful when climbing routes. It will feel natural holding this jug, but don't get fooled by the name, the not-so-nice Mr Nice will have you addicted in no time.

- 🏆 DIFFICULTY all kinds of climbers
- ⚙️ WALL overhanging walls (more than 10°)
- 🧩 TYPE jug

APOLLO

Because of its surface it offers a good grip, which will be particularly useful when climbing boulder problems. This round edge makes climbing such an easy job, you'll climb up to the stars!

- 🏆 DIFFICULTY all kinds of climbers
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE round edge

SOYUZ

Because of its surface it offers a good grip, which will be particularly useful when climbing boulder problems. This sloper makes climbing such an easy job, you'll climb up to the stars!

- 🏆 DIFFICULTY all kinds of climbers
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE sloper

BIG BROTHER

Big brother is really a part of our family and holds a special place in our hearts because it is one of first mini volumes we produced.

NEW

HOLDS

THE BOMBS

They are most appropriate for route climbing. If you think that climbing on these jugs is easy, think again. They will definitely get you pumped and that's why they are great for endurance training. We're sure The Bombs won't disappoint you because they're a blast.

- # HOLDS 10
- 🏆 DIFFICULTY kids, beginners
- ⚙️ WALL overhanging walls (more than 10°)
- 🧱 TYPE 10 jugs
- ↗️ SIZE 10x M

CHARACTERS

Characters are a part of our Limestone collection, which mimics eroded rocks for genuine rock climbing experience. These mouthy characters will stimulate your imagination and make climbing even more fun.

- # HOLDS 6
- 🏆 DIFFICULTY experts
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧱 TYPE 4 crimps, 2 holds are both crimps and slopers
- ↗️ SIZE 2x M, 4x L

DROP ZONE

Drop zone is a part of our Limestone collection, which mimics eroded rocks for genuine rock climbing experience. These holds are suitable for expert climbers, because unless you hold them correctly, you will wish for a parachute to slow down your fall, and land on soft drop zone.

# HOLDS	8
🏆 DIFFICULTY	experts
⚙️ WALL	vertical walls, slightly overhanging walls (up to 10°)
🧱 TYPE	8 slopers
📏 SIZE	4x M, 4x L

SHUTTER

Shutter is a part of our Limestone collection, which mimics eroded rocks for genuine rock climbing experience. You will have to react as a shutter and lock the thumb quickly in order to hold these crimps successfully.

# HOLDS	14
🏆 DIFFICULTY	experts
⚙️ WALL	vertical walls, slightly overhanging walls (up to 10°)
🧱 TYPE	14 crimps
📏 SIZE	12x S, 2x M

FOOTHOLDS 1

These footholds are a part of our Renaissance collection, for those who appreciate the looks. In this set you will find 20 footholds for precise and bit advanced footwork. They are suitable for vertical and slightly overhanging walls (up to 10°).

FOOTHOLDS 2

These footholds are from our Mouse trap collection. Although they resemble nibbled cheese, we can assure you, we don't have any hungry mice running around our warehouse. They are great for vertical walls as well as overhangs. These 26 footholds are excellent for every user because of their simplicity.

FOOTHOLDS 3

This is a set of 11 footholds. They are inspired by molecule's shapes and they offer a lot of different stepping possibilities. But don't be fooled, these footholds are meant for a very determined footwork and are therefore most suitable for experts. They are great for vertical walls, as well as slabs.

MONSTERS

They are great for bouldering to test your monster power.

- # HOLDS 6
- 🏆 DIFFICULTY experts
- ⚙️ WALL vertical walls, slightly overhanging walls (up to 10°)
- 🧩 TYPE 3 crimps, 3 holds are both crimps and slopers

JAW DROP

This set was designed as a result of our goal to produce the best jugs ever made. And we succeeded! These jaw-dropping holds are most suitable for endurance training.

- # HOLDS 8
- 🏆 DIFFICULTY all types of climbers
- ⚙️ WALL overhanging walls (more than 10°)
- 🔗 TYPE 7 jugs, 1 pinch

TECHNOLOGY

In cooperation with a renowned European chemical company we have developed one of the best hybrid **PU materials** for producing climbing holds.

Its main advantages are:

- ✓ high strength, **torque > 40Nm**
- almost unbreakable
- ✓ maximum abrasion resistance
- ✓ excellent temperature resistance
- ✓ environmentally friendly
- ✓ extremely lightweight

Gecko PU holds have:

- ✓ extremely lightweight
- ✓ an abrasion resistant crust with a **synthetic diamond** coating
- ✓ a pure **hybrid polyurethane** core
- ✓ a **stainless steel** insert that protects the holds from damages when tightening the screws; all three types of screws can be used on our holds
- ✓ a completely smooth surface of the hold, as the insert **fits perfectly**
- ✓ a **special insert** (patent pending) that holds the screw and prevents it from falling out during the route setting

ACCESSORIES

TRAINING BOARD MOVEMBER SET

The Movember Training Board was designed to meet every climber's needs, both beginners and experts, all year round and not only in November. It offers a broad variety of holds to enable productive workout, which will greatly increase your finger power and contact strength. On top you will find slopers and a mustache (two jugs) for a good warm-up, and lower a variety of edges and pockets with different depths, for various difficulties. The training board is ergonomically shaped in an arc for less joint stress and reduction of injuries. A very important feature is also its symmetry, which allows effective two handed training.

TRAINING BOARD MOVEMBER PLAIN

- On top you will find 2 balls with a diameter of 135 mm. They are slopers, but if you reach further, they can also be used as positive slopers,
- the mustache on top represents 2 big jugs, which are gradually reducing in size from center towards the outer area,
- below the mustache there are 3 edges with different depths, which are shaped in an arc for more natural weight distribution. The depths (from top to bottom) are as follows: 24mm, 18mm and 12mm,
- there are two 1-finger pockets with a depth of 40 mm, which are very comfortable because of just the right radius,
- below there are two 2-finger pockets with a depth of 19 mm,
- it has 7 different points for mounting the board on the wall.

ADD-ON MIRROR HOLDS

These mirror holds are add-ons for a training board Movember. They are designed as a crimp on one side and as sloper on the other. If you rotate the Mirror holds, you can use them as a pinch, which is a great way to build open handed strength.
